

## Introduction to NHB RESIDEX

NHB RESIDEX, India's first official Housing Price Index (HPI), was launched in July, 2007, to track the movement in prices of residential properties in select cities on quarterly basis, taking 2007 as the base year. With a view to reflect the current macroeconomic scenario, NHB RESIDEX has been revamped to include cluster of indices with updated base year, revised methodology and automated processes.

The revamped NHB RESIDEX is also wider in its geographic coverage and captures two housing price indices viz. HPI@ Assessment Prices and HPI@ Market Prices for Under Construction Properties for 50 cities. HPI@ Assessment Prices is computed using lenders' valuation data received from Banks/Housing Finance Companies (HFCs), while HPI@ Market Prices for Under Construction Properties is based on primary market data for under construction properties collected from developers, builders and brokers. NHB also publishes Composite HPI@Assessment Prices and Composite HPI@Market Prices for Under Construction Properties based on 50 cities. The composite indices are derived by applying population weights to city level indices.

Indices	Data	Sources	Cities
HPI@Assessment Prices	Lenders' valuation data	Banks/HFCs	50
HPI@Market Prices for Under Construction Properties	Primary market data for Under Construction Projects	Primary Market Survey	50

The cities covered in phase 1 are spread across India in 21 States/Union Territories (UTs). Among the cities covered under the two HPIs, 18 cities are state capitals<sup>1</sup> and 33 are part of the smart city list released by Government of India. The housing price indices have been computed on a quarterly basis starting from the quarter April to June,2013, and updated up to quarter January - March,2018, taking FY 2012 -13 as the base year. From the previous quarter, i.e., April-June 2018, base year has been shifted to FY 2017-18. The housing prices are classified based on carpet area size at city level (INR/sq. ft.) for units under three product category levels namely  $\leq 60$  sq.mt,  $>60$  &  $\leq 110$  sq.mt, and  $>110$  sq.mt. The indices are computed using Laspeyres Methodology, followed by calculation of a Four Quarter Weighted Moving Average with application of dynamic weights at product category level and static base year weights on the Weighted Moving Average product category level prices, across all the quarters starting from the base year.

---

<sup>1</sup> Out of 18 State/UT capitals, 15 are also smart cities

## Executive Summary

### HPI@Assessment Prices during the quarter Apr-June,2022

HPI recorded an overall increase in 42 cities, decrease in 5 cities and no change in 3 cities on Y-o-Y basis and increase in 37 cities, decrease in 4 cities and no change in 9 cities on Q-o-Q basis.

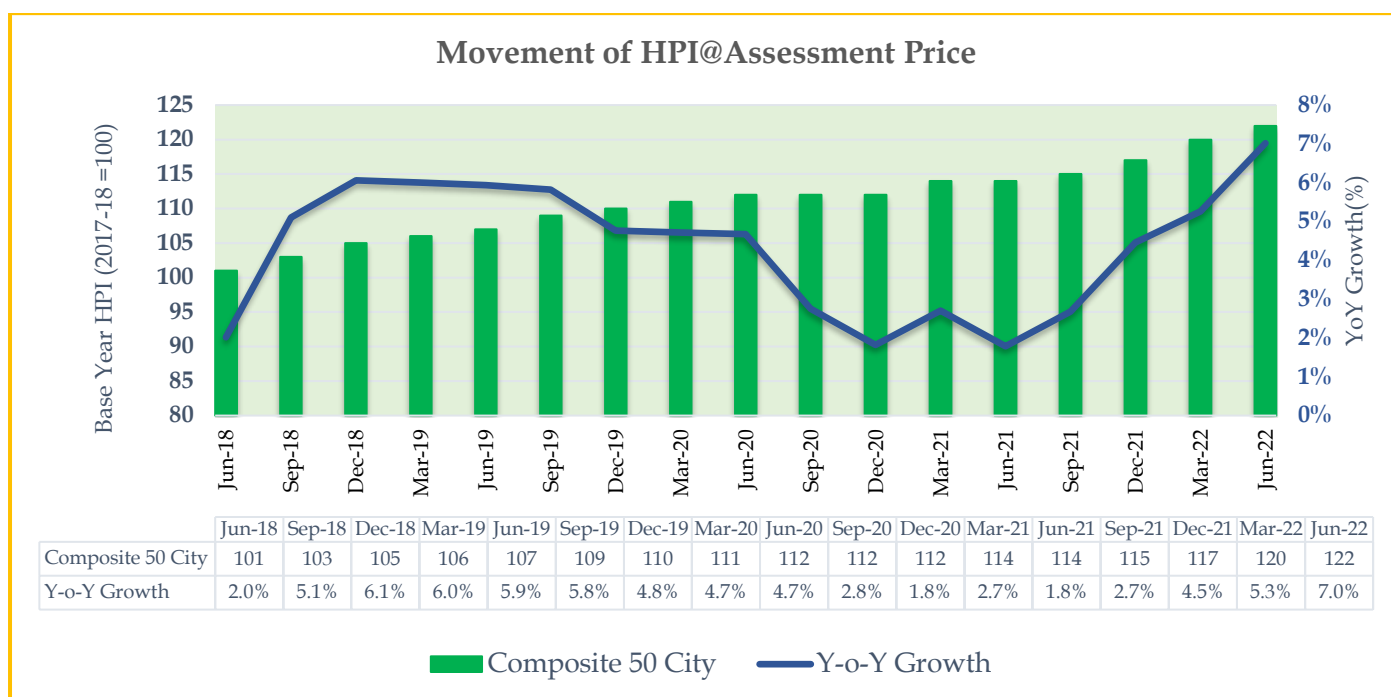

Annual growth in HPI ranged from 16.1% in Coimbatore, 15.9% in Gandhinagar to (-) 5.1% in Navi Mumbai at the end of the quarter Jun-2022.

### Composite HPI@Assessment Prices based on 50 cities

Composite HPI@Assessment Prices stood at 83 in June,2013 and has moved up to 122 in the current quarter i.e., June,2022. The index has moved up with a CAGR of 4.3% over the years.

The index has witnessed a growth of 7.0% on Y-o-Y basis.

### Tier-wise movement

Among the 8 Tier-1 cities, Ahmedabad witnessed maximum increase at 13.5% on Y-o-Y basis followed by Chennai at 12.5%, Hyderabad at 11.5%, Delhi at 7.5%, Kolkata at 6.1%, Pune at 3.6%, Bengaluru at 3.4%, and Mumbai at 2.9%.

On Q-o-Q basis, Chennai witnessed maximum rise (4.5%) followed by Pune (2.7%), Kolkata (2.5%), Ahmedabad (2.3%), Delhi (2.0%), Hyderabad (1.9%), Bengaluru (1.7%), and Mumbai (0.9%).

Of the 29 Tier-2 cities, significant rise in indices was seen in Coimbatore (16.1%), Guwahati (15.8%) followed by Bhubaneswar (14.4%), Vadodara (11.7%), Ludhiana (9.9%), and Jaipur (9.5%), while fall in indices was seen in Noida (-0.9%) on Y-o-Y basis. Kochi and Vijayawada shown stagnancy.

On the other hand, on Q-o-Q basis, Coimbatore shown maximum increase in index by (3.2%) followed by Ludhiana (3.1%), Faridabad (2.8%), Guwahati & Jaipur (2.7%), while marginal fall in index was witnessed in Thiruvananthapuram (-0.7%). Bhopal, Dehradun, Lucknow, Nagpur, Raipur, and Vasai Virar witnessed no change in index.

On Y-o-Y basis, 6 out of 13 Tier-3 cities showed growth with Gandhinagar (15.9%) in the lead followed by Bidhan Nagar & Greater Noida (7.1%), New Town Kolkata (6.3%), Howrah & Thane (0.9%) showed significant increase in indices. Navi Mumbai (-5.1%), Kalyan Dombivali (-1.8%) and Pimpri Chinchwad (-1.0%) witnessed drop in indices on Y-o-Y basis. Chakan, Mira Bhayander, and Panvel witnessed no change in indices.

On Q-o-Q basis Gandhinagar (3.6%) recorded the maximum increase followed by Greater Noida, Howrah (1.9%), (3.4%) and Greater Noida (2.6%) while Howrah (-1.8%), Navi Mumbai (-0.9%) and Panvel (-0.8) recorded a fall in indices. Bhiwadi, Chakan, and Pimpri Chinchwad witnessed no change in index.

## HPI@Market Prices for Under Construction Properties during the Apr-June,2022

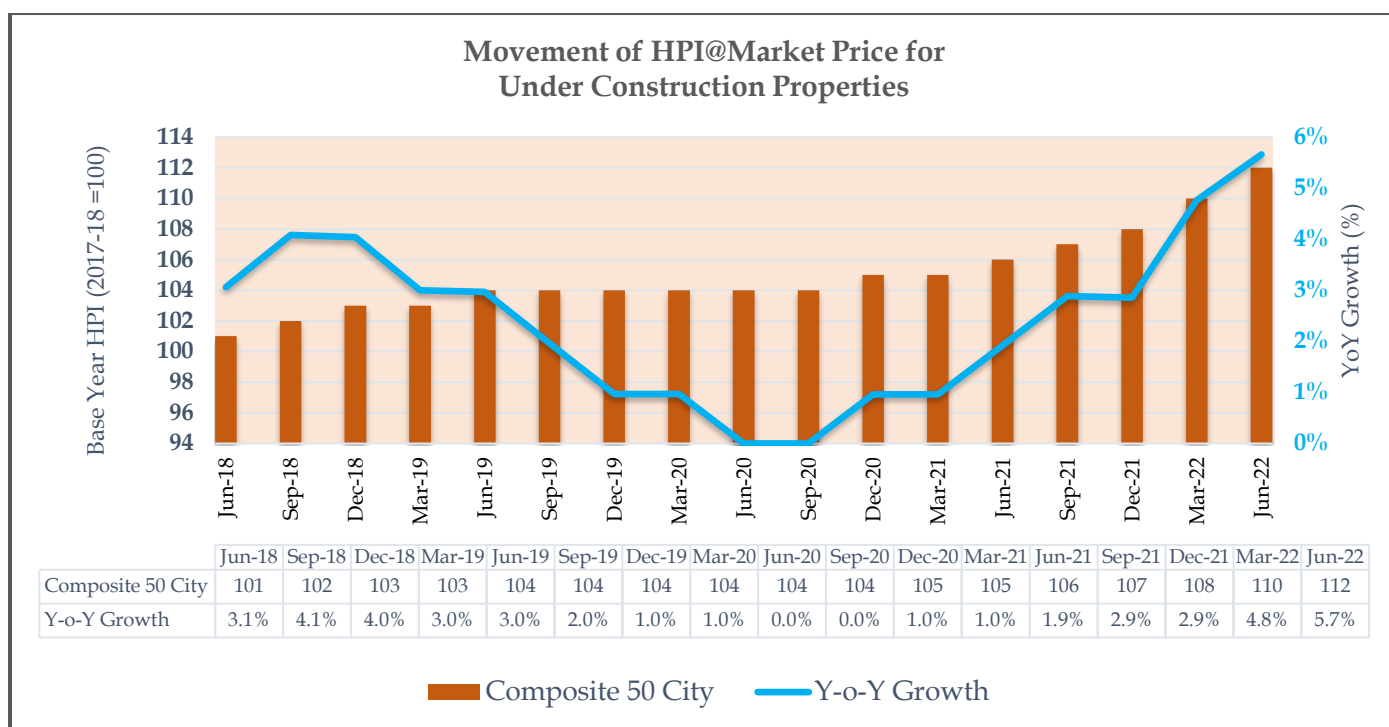

HPI recorded an overall, increase in 40 cities, decrease in 6 cities and no change in 4 cities on Y-o-Y and increase in 37 cities, decrease in 5 cities and no change in 8 cities on Q-o-Q basis.

Annual growth in HPI ranged from 28.6% in Bhubaneswar to (-) 13.2% in Indore at the end of the quarter Apr-June,2022.

## Composite HPI@Market Prices for Under Construction Properties based on 50 cities

Composite HPI@ Market Prices for Under Construction Properties stood at 85 in June,2013 and has steadily moved up to 112 in the current quarter i.e., June,2022. The index has moved up with a CAGR of 3.0% over the years.

On Y-o-Y basis, the index has witnessed a 5.7% growth.

### Tier-wise movement

Annually, out of 8 Tier-1 cities, the cities that showed growth with Kolkata (15.6%) leading, followed by Delhi (8.2%), Hyderabad (5.7%), Bengaluru (5.6%), Pune (5.4%), Ahmedabad (4.7%), and Mumbai (2.1%). Chennai witnessed a fall in Index by (-)3.9%.

On quarterly basis, Kolkata witnessed the maximum increase by (4.1%), followed by Pune (2.1%), Delhi (1.9%), Bengaluru (1.8%), Mumbai (1.0%), Ahmedabad (0.9%), and Hyderabad (0.7%). Chennai witnessed a fall in index by (-1.0%).

Of the 29 Tier-2 cities being covered, maximum increase in indices was seen in Bhubaneswar (28.6%) followed by Ghaziabad (25.9%), Noida (23.2%), Jaipur (17.8%), Patna (17.5%), Lucknow (15.0%) and Guwahati (14.2%), while maximum decrease in indices was seen in Indore (-13.2%), Coimbatore (-6.7%) and

Nagpur (-1.8%) on Y-o-Y basis. Faridabad, Gurugram and Rajkot witnessed no change in index on Y-o-Y basis.

On Q-o-Q basis, maximum increase in indices was seen in Lucknow (18.2%) followed by Vizag (9.0%), Ghaziabad (8.5%), and Bhubaneswar (6.7%). Maximum decline was witnessed in Indore and Rajkot (-1.9%), Coimbatore (-1.0%). Whereas no change was seen in cities like, Dehradun, Gurugram, Kanpur, Meerut, and Ranchi.

Among the 13 Tier-3 cities, the variations ranged from 21.9% in Greater Noida, 13.9% in New Town Kolkata, to (-)1.9% in Panvel on Y-o-Y basis. Chakan witnessed no change in index.

On Q-o-Q basis, maximum increase in indices was seen in New Town Kolkata (6.0%) followed by Greater Noida (5.3%) whereas decline was noticed in Panvel (-2.8%). No changes were seen in cities Bidhan Nagar, Howrah and Navi Mumbai.
